Jordan Casey
Entrepreneur & Self Taught Programmer

Jordan Casey became known publicly; when in February 2012 he became one of Europe's youngest iOS app developers by releasing a mobile game onto the iTunes store. The game called Alien Ball Vs Humans subsequently went to the number 1 on the iTunes charts.

"Start listening to the innovators of tomorrow"

In detail

Jordan began programming at the age of 9 years through watching YouTube videos, internet and reading books on programming. In 2012, Jordan founded 2 companies, Casey Games, a mobile games company along with TeachWare,   an application for teachers to easily manage all of their student's information in the cloud. It won 2 business awards and was nominated for a BAFTA. He announced his application Eventzy at the Web summit in Dublin in October 2014. Jordan is an Advisory member for Mind Candy - The Company behind the hugely successful Moshi Monsters. Jordon has also worked with the European Commission on a few projects encouraging youth entrepreneurship. He is currently working on a project called KidsCode which is an online application that inspires children to program with their friends, as well as a social network called Jump.
